

C H E L S E A

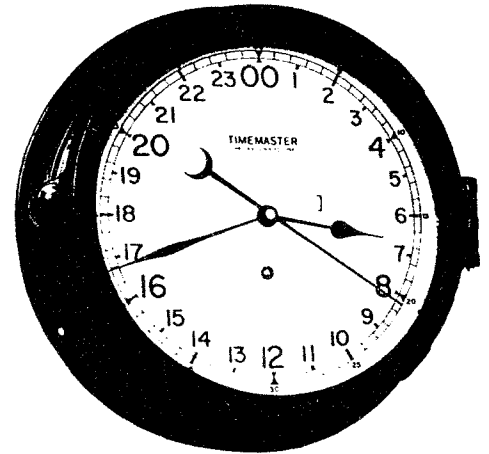

Timemaster Series of Commercial Marine Clocks (non-striking)

Meet or exceed U.S. Navy specifications according to MIL SPEC 1194C & 1194D

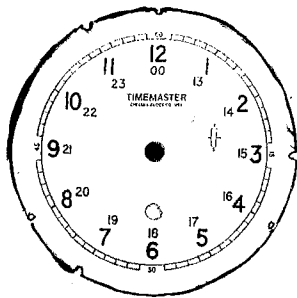

All quartz and mechanical clocks have passed U.S. Navy tests for accuracy, shock, vibration, exposure to salt spray, humidity and temperature extremes. All clock faces are specially designed to be easily read at a distance. All clocks have a sweep second hand for precise timing. (Radio Room has double hour hand so that direct reading of Greenwich Meantime as well as local zone time is easily obtained for logging.)
