abrasion resistance. Made to *Buccaneer* high standards, and manufactured in soft, medium and hard lay. Well-suited for boating, construction, industrial, commercial, and safety lanyards. This rope meets MIL-R-17343.

## TWISTED POLYESTER

A four stage rope made of 100% Polyester with low stretch and high strength qualities, as well as good snag resis-

Diameter	(Inches) (mm)	1/4 6	5/16 8	3/8 9	7/16 11	1/2 12	5/8 16	3/4 19	7/8 22	1 25
Tensile Strength	(Average)	1650	2500	3700	5000	6400	10000	12500	18000	22000
Weight/100 Feet	(Average)	2	3.1	4.5	6.2	8	13	17.5	25	30.5

tance and knot integrity. This rope finds many uses in construction, boating, and arborists markets. Also, available with *Buccaneer* orange coating for abrasion resistance and safety identification. *Buccaneer* twisted Polyester rope is highly versatile and meets MIL-R-30500.

## TWISTED SPUN POLYESTER

A 3-strand spun yarn rope used in applications where soft handling is important. The rope is manufactured from 100% Spun Polyester and is ideal for playground nets and similar uses, as well as for running rigging or luff line.

Diameter	(Inches) (mm)	3/16 5	1/4 6	5/16 8	3/8 9	7/16 11	1/2 12
Tensile Strength	(Average)	700	1200	1800	2500	3300	3800
Weight/100 Feet	(Average)	1,0	1.7	2.7	3.6	4.8	6.4
